

Dear Dr. Henney:

Why, in spite of WHO recommendations to end use in animal feed of all antibiotics used in human medicine and closely-related drugs, do you continue to give your approval?

And, why, inspite of strong opposition from the Centers for Disease Control, do you continue to give your approval?

Current <sup>over</sup> use of antibiotics in human medicine must be banned NOW.

Mrs. Harold G. Bush  
673 Woodmont Avenue  
Berkeley, CA 94708-1235

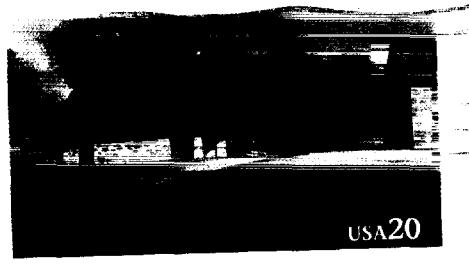

June 12, 1999

Sincerely,

*Amy Bush*
